Reviewed by:

well cared-for during his formative years. When FERGUSON was 14 years old, his father suffered a heart attack and had to undergo several bypass surgeries as a result.

114. FERGUSON's mother worked at the family business until her retirement and the couple's subsequent move to Alabama. Annie Ferguson continues to reside in Alabama and at the age of 88, is in good health despite having a pacemaker placed approximately two years ago. The defendant's mother lives alone and does not, according to FERGUSON, know the "full magnitude" of everything involved in the instant offense, nor does he want her to know as she would likely be "devastated." The defendant stated that he worries about his mother's well-being as he was used to "taking care of the day to day" things around her home. Prior to his incarceration for the instant offense, FERGUSON resided at various locations within the City of Detroit and reported that he lived with his wife and children at 18944 Bretton Drive, Detroit, Michigan.

Physical Condition

115. FERGUSON is 5'11" tall, weighs 225 pounds, and has brown hair and brown eyes. In 1998, the defendant was the victim of an attempted carjacking and robbery in the City of Detroit. During the robbery, the defendant was shot in the chest three or four times. Following the shooting, FERGUSON was treated at Sinai-Grace Hospital located in Detroit, Michigan. The defendant advised that he was dead on arrival (DOA) at the hospital, spent two weeks in the hospital following the incident, and participated in several weeks of rehabilitation. Following the shooting, FERGUSON was diagnosed with an irregular heartbeat as the bullet grazed his heart. In approximately 2001, FERGUSON was diagnosed with high blood pressure and was prescribed medication. At the present time, FERGUSON is not taking any medications, nor is he under a doctor's care.

Mental and Emotional Health

116. The defendant advised that he is in good mental and emotional health with no history of mental health problems. FERGUSON has never consulted a mental health professional; however, was ordered to attend anger management classes following his 2005 conviction. FERGUSON advised that he is staying strong for his family and, overall, is doing "ok" despite the huge legal battles he has ahead of him. The defendant stated that he stays steadfast in his beliefs and has a strong faith in God.

Substance Abuse

117. During the presentence interview, FERGUSON advised that he first drank alcohol at the age of 20 or so and continued to drink, on a social basis only, until his incarceration for the instant offense. The defendant stated that his alcohol use was limited to drinking a beer or two on the weekends and was never problematic. FERGUSON advised that he has no issues with alcohol despite the fact that he has one alcohol-related conviction and another alcohol-related arrest for which he was not charged.

MEDICAL TREATMENT REFUSAL

CDFRM

U.S. DEPARTMENT OF JUSTICE

FEDERAL BUREAU OF PRISONS

3-13-2019
Date

I, BOBBY FERGUSON 44950-039, refuse treatment recommended by the Federal Bureau of Prisons Medical staff for the following condition(s):

DESCRIBE CONDITION IN LAYMAN'S TERMINOLOGY:

elevated AHA 10 year cardiac risk assessment score

The following treatment(s) was/were recommended:

atorvastatin 10 mg PO nightly

Federal Bureau of Prisons Medical staff members have carefully explained to me that the following possible consequences and/or complications may result because of my refusal to accept treatment:

Increased risk of developing CAD overtime leading to heart attack with disability and or death.

I understand the possible consequences and/or complications, listed above, and still refuse recommended treatment. I hereby assume all responsibility for my physical and/or mental condition, and release the Bureau of Prisons and its employees from any and all liability for respecting and following my expressed wishes and directions.
